

REQUIRED INSPECTIONS FOR SEWER HOOKUP OR SEPTIC SYSTEMS

SEWER HOOKUP

1. Line from house to sewer main or manhole prior to backfill.
2. House trap and fresh air vent.
3. For pressure sewers - ejector pump and appropriate valves prior to backfill.
4. When connecting to Saratoga County sewer line, hookup to main or manhole must be inspected by Saratoga County Sewer District as well as the Town of Clifton Park.

SEPTIC SYSTEM

1. Line from house to septic tank before backfill.
2. Septic tank and distribution box must be filled with water and inspected prior to backfill.
3. Leach bed lines prior to backfill.
4. Special design systems such as built up or mound systems must be inspected and certified by the design engineer as well as the Town of Clifton Park.

-
- ◆ All inspections except sewer lines require a minimum of 24 hours notice prior to inspection date.
 - ◆ **Town approved plans must be on site for all inspections.**
