OFFICE OF THE SUPERVISOR

# **SNOW REMOVAL FROM FIRE HYDRANTS DURING MAJOR STORMS**

Clifton Park's volunteer fire departments are asking residents for help clearing snow from fire hydrants. The large amount of snow accumulation in the area has left many hydrants partially or completely buried in snow, creating a potentially dangerous situation in the event of a fire.

The fire departments ask residents who have a fire hydrant on or near their property to please take the time to clear snow from the hydrant. This will allow rapid access to water, helping firefighters do their jobs quickly and potentially saving life and property.

Keeping fire hydrants visible and easily accessible can save precious time and precious lives. Thank you for your cooperation.
